Town Clerk.

Town Clerk Heather Greenawalt mentioned that resident Ted Berndt had stopped by and said that the Town of White Creek and the Town of Jackson were interested in changing the Town Wide tag sale to weekend of Columbus Day which would be October 12th & 13th. Residents had questioned whether this was for the village only or the whole town. Supervisor Watkins mentioned that he believes it was for the entire town. Councilwoman Fedler said that she believes this year it is just a test to see how it runs so next year the fire dept. can collect money towards the new firehouse project. This year's money that is collected is not going towards the fire dept., unless individuals would like to donate.

Town Board

Councilwoman Fedler reported that she and Councilman Skiff went to the Planning Board Meeting. She mentioned that setbacks need to be decided on and guidelines need to be written down. She said that this would include so many feet from the road for safety and driveways. It was questioned at the Planning Board meeting whether or not some of these rules would apply to the farmers. The legality of this would have to be looked into. Councilwoman Fedler did mention that the Planning Board was a good board, they all work well together and Eric Pearson was a great chair for the board.

Councilman Ford reported that the State was working on finishing the paving of State Route 372.

Highway Report

The Highway Department helped White Creek pave. They also installed driveway culvert on Lees crossing, King Road and ditched a section of King Road. They had 3 trucks inspected and replaced wheel seal. They are continuing to mow roadsides and have screened the sand pile from last year. The Highwaymen have helped White Creek haul sand and have hauled 780 yards from gravel pit in Salem with help from White Creek. Highway Superintendent Alan Davis reported also that on Saturday night he received a call about the bridge on Old Coila Road. He checked the Bridge on Sunday and the beams are sagging so he closed the bridge. He mentioned that there would have to be a turn around put in place for the school bus. He has been in contact with Dept. of Public Works at the County and the engineer has written up an estimate for three different options. The options are being looked at and Highway Superintendent Davis is looking into grant money and the possibility of in option #3 using an aluminum culvert. Councilman Ford asked if it was something that the Town had to meet state specs or they could repair themselves. Highway Superintendent Davis said that he had more information to gather and all options would have to be reviewed.

Highway Superintendent Davis said that he would like to rent the lift for a month this fall, which would be approximately \$1350. He would like to remove a lot of the overhanging limbs and branches. The Town Board agreed that it was a good idea to rent a lift for safety reasons and gave the superintendent the go ahead.

Planning Board Report

Town Clerk Heather Greenawalt reported in Sally Eddy's absence.

The Town of Cambridge Planning Board held its regular monthly meeting, Thursday, September 5, 2013, 7:30 PM at the Town Hall with six members present.

Also in attendance, were six people from the public including two Town Board members, Cassie Fedler and Gerry Skiff.

The following business was addressed:

1. Grant preliminary Approval to Jackie Hersey for a 8.225 minor subdivision to be conveyed to adjacent landowner Randy Hamilton. Mrs Hersey's property is located at 418 County Rt. 60 and is identified by tax map #262.-1-10. A public hearing on the application will be held at the October 3 meeting.
2. Michael Murray presented a sketch plan to subdivide a parcel from the 128.0 acres owned by his father, George Murray. George Murray's property runs along County Route 59 and English Road and is identified by tax map #262.-2-12. The proposed subdivision is locate along English Road and consists of approximately 25-30 acres. Wayne Robertson is the interested buyer. The sketch plan was approved and Mr. Murray was directed to proceed with the survey.
3. Jerry Moppert spoke about the video "Brunswick" which he had recently seen on PBS. He felt it would be useful and informative to show it locally and invite the public. He was authorized to go ahead and make the necessary arrangements.
4. Town Board members Cassie Fedler and Gerry Skiff asked planning board members to reaffirm the set back measurements they (planning board) recommended to the Town Board for implementation back in January 2011. The three recommendations are:
 - 1) There shall be a minimum 70 ft set back from the center of the highway for all new permanent structures.
 - 2) There shall be a minimum 50 ft. set back from the boundary line for all new permanent structures.
 - 3) There shall be a minimum 50 ft wide access road for ingress and egress for all new subdivisions.

A question was asked if these rules would apply to farmers as well or they exempt because of their agricultural nature? The Town Board will investigate it.

Code Enforcement

Code enforcement Officer LaVerne Davis reported that there was an issue with a house on Camb-Battenville Road. The home is not being taken care of, the lawn had not been mowed and recently all of the grass was killed and there is junk all over the lawn. The neighbor is very upset with this; he stated in the letter that he tries to keep his property looking nice. The neighbors are requesting that the property be cleaned up.

The Village is setting money aside to tear the building down. Ashleigh Morris from the Eagle said that the problem with this building is that the building only has three sides and the other side is attached to the Imhof building.

County Report

The County is working on the budget. The Hartford land is on the auctions international and the closing day for bids is the 20th of September.

Privilege of the Floor

Robbie McIntosh said that zoning is the only way the Town of Cambridge will have any teeth to control development. He stated that a zoning ordinance would have to be enacted.

There being no further business before the Board, the meeting was moved and carried to adjournment at 9:00 PM.

Respectfully yours,

Heather Greenawalt
